I think a good service is a stray dog restaurant named Woof Woof Doggie Grub. Lot's of dogs are out on the streets starving to death. Most dog lovers, who hate to see dogs starve, would really love this service. My service will be seen on Radio, our website, news paper and Channel 6 TV. We will provide food for the dogs but the buyer will have to come to get the food. Our business will grow so I'll have to hire some people. Mostly what's needed is meat, vegetables, a little bit of fruit, and for the sick dogs, some dog medicine. To make enough food for a whole year, we will start right away. The cost for the dog's food is \$. 75 per serving but donations are accepted for more. So if you find a stray dog put him in your car and come to the dog restaurant. We can also hook up lost dogs with my classmate, Brytini Ketchner's, Dog Rescue Service if they have no home for a permanent solution.
